

# Contents

<i>About the Authors</i> .....	<i>xi</i>
<i>About the Technical Reviewer</i> .....	<i>xiii</i>
<i>Acknowledgments</i> .....	<i>xv</i>
<i>Chapter 1 Introduction</i> .....	<i>1</i>
<i>J2SE 1.4</i> .....	<i>2</i>
<i>The SCJD Exam (310-027)</i> .....	<i>2</i>
The Structure of the Exam .....	<i>2</i>
Downloading the Exam .....	<i>3</i>
Documentation and Questions .....	<i>3</i>
<i>Who Should Read This Book</i> .....	<i>4</i>
<i>About This Book</i> .....	<i>4</i>
<i>Setting Up the J2SE 1.4 SDK and Environmental Variables</i> .....	<i>6</i>
Configuring System Properties .....	<i>7</i>
<i>Summary</i> .....	<i>11</i>
<i>Chapter 2 Project Analysis and Design</i> .....	<i>13</i>
<i>Implementing a Project</i> .....	<i>14</i>
Getting Started .....	<i>14</i>
Gathering Requirements .....	<i>15</i>
Prototyping the GUI .....	<i>15</i>
Using Accepted Design Patterns .....	<i>15</i>
Documenting Design Decisions .....	<i>16</i>
Testing .....	<i>16</i>
<i>Organizing a Project</i> .....	<i>17</i>
<i>High-Level Documentation</i> .....	<i>18</i>
Design Decisions Document .....	<i>19</i>
<i>Java Coding Conventions</i> .....	<i>19</i>
Variable Conventions .....	<i>20</i>
Method Conventions .....	<i>21</i>
Formatting Conventions .....	<i>22</i>
Comment Conventions .....	<i>22</i>
Naming Conventions .....	<i>23</i>
Exception Conventions .....	<i>24</i>

<i>Javadoc</i> .....	27
Javadoc in Depth .....	27
Javadoc Style Guidelines .....	29
Formatting Javadoc Comments .....	32
Running the Javadoc Utility .....	36
New Javadoc Features .....	37
<i>Working with Packages</i> .....	39
<i>Best Practices</i> .....	41
Assertions .....	42
Logging .....	43
<i>Summary</i> .....	58
 <b>Chapter 3 Evaluating the Sample Project</b> .....	61
<i>Introducing the Sample Project</i> .....	61
Starting Point .....	62
Running the Client .....	65
<i>Application Overview</i> .....	70
Modifications .....	71
<i>Summary</i> .....	74
 <b>Chapter 4 Threading</b> .....	77
<i>Understanding the Fundamentals</i> .....	78
A Brief Review of Threads .....	79
Multithreading .....	80
Java's Multithreading Concepts .....	80
Waiting .....	81
Locks .....	94
Understanding Thread Safety .....	103
<i>Using Thread Objects</i> .....	111
Stopping, Suspending, Destroying, and Resuming .....	111
Thread States .....	112
More on Blocking .....	113
Synchronization .....	115
<i>Threads and NIO</i> .....	118
FileChannels .....	118
Other Channels .....	119
<i>Threads and Swing</i> .....	119
Multithreading with Swing .....	120
General Principles of Threading with Swing .....	121
<i>Threading Best Practices</i> .....	122

<i>How Threading Affects the Code Base</i> .....	124
The Class Structure .....	124
Discussion Point: How Will the DVDDatabase Be Used? .....	126
Discussion Point: Reserving and Releasing DVDs .....	128
Discussion Point: Locking and Unlocking .....	132
New db Package Structure .....	132
Discussion Point: Reading and Writing .....	133
<i>Summary</i> .....	135
 <i>Chapter 5 Networking with Sockets and RMI</i> .....	139
 <i>What Is Serialization?</i> .....	141
Using the Serialver Tool .....	142
The Serialization Process .....	144
Complete Control with Externalizable .....	147
Socket Overview .....	150
An Introduction to RMI .....	166
<i>Summary</i> .....	184
 <i>Chapter 6 The Graphical User Interface</i> .....	189
 <i>GUI Concepts</i> .....	190
Layout Concepts .....	191
Human Interface Concepts .....	193
An Example Analysis .....	200
<i>Model/View/Controller Pattern</i> .....	204
Why Use the MVC Pattern? .....	204
MVC in Detail .....	205
A Real-World Example of MVC: Denny's DVDs .....	208
Benefits of MVC .....	212
Drawbacks of MVC .....	213
Alternatives to MVC .....	213
<i>Abstract Window Toolkit</i> .....	214
AWT Review .....	214
<i>Swing</i> .....	224
Differences Between AWT and Swing .....	224
Swing-Specific Components .....	231
<i>Bringing Denny's DVDs Together</i> .....	240
<i>New Swing Additions in J2SE 1.4</i> .....	253
AWT Focus Architecture .....	253
Drag and Drop .....	253
<i>Summary</i> .....	260

<b>Chapter 7 NIO</b>	263
<i>NIO: The Future of Java I/O</i>	264
Advantages of NIO	264
Changes to Existing File I/O	265
Changes to Network I/O	266
<i>Buffers</i>	269
How Buffers Work	269
Buffers in J2SE 1.4	270
<i>Channels</i>	281
The Relevant Channels	281
ByteChannels in NIO	281
FileChannels in NIO	283
SocketChannels in NIO	290
<i>Regular Expressions</i>	300
What Regular Expressions Are	300
How Regular Expressions Are Useful	301
Regular Expressions in J2SE 1.4	301
A Simple Example of the Regular Expressions Classes	303
Introduction to Regular Expression Syntax	305
<i>Summary</i>	313
 <b>Chapter 8 Project Wrap-up</b>	 315
<i>Thread Safety and Locking</i>	316
The Choice Between RMI and Sockets	317
<i>The MVC Pattern in the GUI</i>	318
<i>Locating the Code Samples</i>	318
<i>Compiling and Packaging the Application</i>	319
<i>Creating a Manifest File</i>	320
<i>Running rmic on the Remote Package</i>	321
<i>Packaging the Application</i>	322
<i>Running Denny's DVDs in Local Mode</i>	324
<i>Running Denny's DVDs in Network Mode</i>	326
<i>Testing</i>	329
<i>Summary</i>	335
 <b>Index</b>	 339
